Summit® 3000 SERIES LOW PROFILE FLOOR SCALE

An Economical Choice Offering Exceptional Performance

The Summit® 3000 Series provides exceptional performance in light industrial and legal-for-trade applications. While value-priced, the Summit 3000 also employs a rugged design to deliver efficient installation and operation.

The convenient top-access junction box is housed in a durable ABS enclosure and is protected from fork trucks and other industrial abuse by the Summit 3000's diamond treadplate steel deck. The scale has fully adjustable, rigid polyurethane rubber feet to accommodate weighing on uneven surfaces.

The load cell cable exits the weldment towards the interior of the scale, allowing you the flexibility to route it out any side of the scale to the digital weight indicator. This also means the indicator load cell cable is at floor level—reducing the potential for damage.

Standard Features

- Four NTEP-certified alloy steel shear-beam load cells
- Top access junction box
- Steel diamond treadplate deck
- Four adjustable rigid polyurethane rubber feet, 3" (76.2 mm) diameter
- Signal-trim summing board housed in ABS enclosure
- One threaded eyebolt hole located in the center of the weldment for easy lifting
- 20 ft of EL147 load cell cable
- Conduit for additional load cell cable protection

Options/Accessories

- Floor anchor plates, mild steel (set of two)
- Four drilled deck holes for scale height adjustment

Pit Frames

For pit installations, frames are available with design drawings.

Access Ramps

For above ground applications, ramps are available for scale access convenience.
