

The B-TEK Workhorse is designed for rugged environments and high-traffic applications involving material handling vehicles. The platform is constructed with WF I-beams and heavy-duty weighbridge deck plate. Lift trucks, skid steers and similar vehicles present concentrated loads that can quickly fatigue and wear out lighter duty platforms. The Workhorse is built to last for many years with these heavy concentrated type loads. The Workhorse can be installed in a pit application or above-ground with ramps available in of any length to meet specific vehicle or application requirements.
